

## Aira: Visual Interpreting on Your Terms

---

Aira provides on-demand, remote visual interpretation for the blind and low vision community to enhance their independence and efficiency. People can download the Aira app in the iOS App Store or Google Play store. Be sure to try our new feature called Access AI. Explorers can snap a photo, share from their gallery or device, receive detailed descriptions, ask follow-up questions, and enjoy free validation of AI responses by a visual interpreter
